False swearing related to rather than in C.A. 75-1996 HW 6/27/77

I do not intend the attached extra copies of Serials 2877 and 2879 for use Thursday. Not that if you want to you cannot.

This is a new aspect of FBI false swearing.

With Hitt the SAC and able to claim no personal knowledge, this is not new. Nor is hearsay affidavits.

Garner was a drunk.

My earlier notes show what did happen.

An agent or agents under cover rented Room 2 from Garner. When it was known that Garner would not be interrupting they took the hinges off the adjoining room and stole what was in it.

There is never a time the FBI can't find an agent who will produce precisely the affidavit required of him.

If he cares about what is good for him.
